	PAGE	iii

### REVISION HISTORY

REV	DESCRIPTION	DATE	APPROVAL
A	Revision A clarifies section 3.3 and 3.6. Appendix B pages B2-B4 were added to and typographical errors have been corrected on the List of Effective Pages. The effective date of change has been added to Appendix B. Appendix B pages B2-B4 WILL not be changed to show Revision A. Thus allowing original FAA approval signatures and dates to remain. For all future Appendix A & B pages the Manual revision and date will not be shown.	21-JAN 2003	S.P. Magee G.H. Maus C.W.C. Story
B	Revision B adds title changes made during company Board of Directors meeting on 13 OCT 2004.	10 DEC 2004	S.P. Magee G.H. Maus C.W.C. Story
C	Revision C corrects job titles for the Quality Department, changes the department who is responsible for revisions from Quality to Engineering. Corrects various typographical and punctuation errors and makes necessary changes due to changes in 14 CFR Part 45. Form QA-017 has been added as have other MPC documents pertaining to this manual. In addition, changes have been made pertaining to changes in document management at MPC. Management Approval has been removed from the Title Page and added to new page ii. The nomenclature "Title Page" and revision level of the manual have been added to the Title Page in an effort to standardize the appearance of manuals at MPC. References to FAR have been changed to 14 CFR. The List of Effective Pages has been updated to include add pages to Appendix B per the change in Section 3.3. The revision level of these pages of Appendix B in respect to the manual are at Rev.A. Any future pages added to Appendix B will be at least Rev. C as the date in the header has been changed in this revision.	25 APR 2008	S.P. Magee G.H. Maus C.W.C. Story
D	Review and revision for formatting and update to include revision of job titles; inclusion of annual review of manual and deletion of manual control record.	2012 SEP 10	See Title Page
E	Revision E Removed the title of Vice President Finance / Treasurer in section 2.5. Eliminated the requirement for the FAA FSDO PMI to approve each page of the Appendix B CCL listing. Complete reorganization of Appendix B. Updated obsolete AC 145-3 to current AC 145-9 in References Section.	2014 DEC 12	See Title Page

<b>magee</b>	MANUAL	1015
TITLE: <b>FAA REPAIR STATION CAPABILITIES LIST PROCEDURE MANUAL</b> <i>Repair Station GR1R176K</i>	Original Issue DATE	28-May 2000
	PAGE	1

## 1.0 Introduction

- 1.1 Magee Manual No. 1015 has been established to serve as control procedures for a FAA Repair Station Capabilities List. This Controlled Capabilities List, hereinafter referred to, as (CCL) is part of FAA Repair Station Number GR1R176K issued to Magee Plastics Company hereinafter referred to as MPC.
- 1.2 The Vice President of Engineering and Quality Assurance shall be responsible to maintain the CCL.
  - 1.2.1 One original signed master copy of the CCL shall be produced and maintained at the Magee Plastics Company in accordance with Magee Manual No. 1009 Document and Record Control. All Magee Plastics Company employees shall have access to this Manual.
  - 1.2.2 A hard copy shall be forwarded to the governing Federal Aviation Administration Flight Standard District Office hereinafter referred to as FAA FSDO, to be used as an official file copy.
- 1.3 Scope
  - 1.3.1 The CCL is applicable to the Magee Plastics Company Repair Station as documented and described in Magee Manual No. 1007 FAA Approved Repair Station No. GR1R176K.
  - 1.3.2 This repair station shall not maintain or alter any item which it is not listed within Magee Plastics Company Manual No. 1015, FAA Approved Controlled Capabilities List Procedure Manual.
- 1.4 Program Intent
  - 1.4.1 This program is intended to allow the repair station to submit a list of approved repair capabilities to the FAA by listing the OEM and MPC Part Number of the part to be repaired on the CCL and submitting it to the controlling FAA FSDO.
  - 1.4.2 The Vice President of Engineering and Quality Assurance / Accountable Manager for the repair station shall ensure that the repair station has the required capabilities with regard to trained qualified personnel, technical data, adequate tools and equipment to perform the repairs. The Vice President Engineering and Quality Assurance shall submit a new repair CCL listing to the FAA based on meeting the above requirements within 48 hours of beginning the repair and can begin the repair in accordance with the written request without prior acknowledgement from the FAA.

## 2.0 Definitions

- 2.1 AC: (Advisory Circular) A communication or publication issued to provide guidance in order to assist on how to comply with specific FAA regulations or statutes.
- 2.2 AD: Airworthiness Directive. Airworthiness Directives are issued to correct unsafe conditions in a product. A product is an aircraft, aircraft engine, propeller, or appliance.
- 2.3 CFR: Code of Federal Regulations. It is a codification of general and permanent rules that pertain to agencies and departments of the Federal Government.
- 2.4 FAA Federal Aviation Administration
- 2.5 Executive Management: CEO / CFO (Chief Executive Officer / Chief Financial Officer); COO (Chief Operations Officer); President; Vice President Engineering and Quality Assurance; Vice President Sales and Marketing; Vice President Production
- 2.6 FSDO: Flight Standards District Office
- 2.7 MLT: Magee Leadership Team which consists of the following officers: COO (Chief Operations Officer); President, Vice President Engineering and Quality Assurance; Vice President Sales and Marketing; Vice President Production
- 2.8 MPC: Magee Plastics Company
- 2.9 OEM: Original Equipment Manufacturer
- 2.10 Part: An article which may be a material, component, process, or appliance.
- 2.11 Repair Station: Magee Plastics Company is an approved FAA repair station. With proper prior authorization from the FAA, MPC is permitted to repair items listed in the Control Capabilities List Manual No. 1015.

## 3.0 Responsibilities

- 3.1 The Vice President of Engineering and Quality Assurance is the Accountable Manager of the MPC FAA Approved Repair Station and is responsible for the ensuring Magee Manual No. 1015 and its associated Appendices are reviewed, current and approved.
- 3.2 The Magee Leadership Team (MLT) shall be responsible to provide the appropriate resources and training for the implementation and maintenance of this Manual.
- 3.3 The Product Quality Coordinator is responsible for ensuring the Repair Capabilities Audits are conducted in accordance with the requirements of this Magee Manual.

<b>magee</b>	MANUAL	1015
TITLE: <b>FAA REPAIR STATION CAPABILITIES LIST PROCEDURE MANUAL</b> <i>Repair Station GR1R176K</i>	Original Issue DATE	28-May 2000
	PAGE	3

#### 4.0 **General**

##### 4.1 **Revisions - General**

- 4.1.1 Revisions to the actual Manual No. 1015 FAA Repair Station Capabilities List shall be processed in accordance to Magee Manual No. 1009 Document and Record Control.
- 4.1.2 Revisions to the CCL (Appendix A and Appendix B) shall be processed in accordance with this document. This revision system is separate from Magee Manual No. 1009 Document and Record Control.

##### 4.2 **Manual Revisions**

- 4.2.1 An annual review of this manual shall be conducted by the appropriate Magee Executive Management to include the Vice President of Engineering and Quality Assurance. Any subsequent revisions to this manual shall be prepared by the Vice President of Engineering and Quality Assurance or delegate and approved by the FAA FSDO.
- 4.2.2 A list of effective pages shall be issued with each revision. In addition, a revision history shall be documented to trace the reasons for changes.

##### 4.3 **CCL (Appendix A and Appendix B) Revisions**

- 4.3.1 Appendix A (Change Record Controlled Capabilities List) shall document and serve as the revision control of the CCL (Appendix B).
- 4.3.2 Changes to the CCL (Appendix B) shall be made by listing the part to be repaired by OEM Identification, OEM part number, description, MPC part number and MPC Drawing Number.
- 4.3.3 The change to the CCL shall be accomplished by adding the necessary items to Appendix B (the CCL), and Appendix A shall be updated to reflect the current status of the CCL.
- 4.3.4 The individual line item on each page within the CCL shall be revised to indicate the change number and the effective date.
- 4.3.5 Changes to Appendix A & B shall not be reflected in the body of this manual nor on the Revision History or the List of Effective Pages except until a revision of the manual is done and at that time pages added to the appendixes will be included in the List of Effective Pages only.

<b>magee</b>		MANUAL	1015
TITLE: <b>FAA REPAIR STATION CAPABILITIES LIST PROCEDURE MANUAL</b> <i>Repair Station GR1R176K</i>	Original Issue DATE	28-May 2000	
	PAGE	4	

4.3.6 MPC shall retain all superseded pages in electronic format only. This CCL change system will allow a change to the CCL without revising this Manual or FAA approved Inspection Procedures Manual for FAA Approved Repair Station, MPC Manual No.1007

4.3.7 The Vice President of Engineering and Quality Assurance or delegate shall be responsible for making revisions to the CCL, and to ensure revision levels and revision dates are maintained.

#### **4.4 FAA APPROVAL OF CHANGES**

4.4.1 On the next scheduled surveillance by the FAA, the Principal FAA Inspector and the MPC Vice President of Engineering and Quality Assurance shall verify the Repair Station's capabilities to accomplish additional repairs.

4.4.2 Upon verification of the capabilities, the Principal FAA Inspector shall sign the Change Record Controlled Capabilities List, thereby completing the approval process. A copy of the Change Record Controlled Capabilities List shall be given to the Principal FAA Inspector for the FAA records. The original signed copies shall be held as quality records at Magee Plastics Company and retained for a minimum of ten years.

#### **4.5 METHODS OF REPAIRS**

4.5.1 The repair, alteration or overhaul of all parts shall be performed in accordance with all current Federal Aviation Regulations, manufacturer's data, drawing, specifications and bulletins and other FAA approved technical data.

4.5.2 This repair station shall not maintain or alter any item for which it is not rated and does not have the required technical data, equipment, materials, facilities and trained personnel.

#### 4.6 REPAIR CAPABILITIES AUDIT

- 4.6.1 The Product Quality Coordinator shall conduct an audit to substantiate and maintain capability in the following critical areas: housing, facilities, equipment, material, technical data, processes and trained personnel.
- 4.6.2 The audit shall be accomplished in conjunction with a revised or original Controlled Capabilities List, (CCL) which in effect constitutes the authority to amend the repair station operations specifications.
- 4.6.3 This Repair Capabilities Audit, accomplished by Magee Plastics Company, shall be submitted with and as part of each change to the CCL.
- 4.6.4 The Product Quality Coordinator shall sign and date Appendix A when the audit is completed and the CCL has been updated to reflect the changes of the items from the completed audit.
- 4.6.5 The audit and CCL shall be completed showing justification and compliance with 14 CFR Part 145, subpart B prior to the repair station acceptance of accessories for maintenance or repair.
- 4.6.6 MPC shall forward a completed copy of the audit and revised CCL to the FAA certificate holding office prior to the release of any listed CCL articles.
- 4.6.7 Magee Plastics Company shall utilize the latest approved revision of Magee Form QA-017 to document the audit. This audit and all supporting documentation shall be filed according to the CCL Revision Number and Manual No. 1009 – Document/Record Control as applicable.
- 4.6.8 A copy of the original completed Magee Form QA-017s shall be kept with the Magee Plastics Company's master copy of this manual.
