Magee Plastics Company (MPC) Supplier,

This form is to notify you of a clause addition to our Purchase Order Requirement Quality Clauses; Magee Form QA-24.

Effective June 1, 2020, when specified on Magee purchase order(s), Clause 250 includes:

NONCONFORMING PRODUCT / MATERIAL

Where the receipt of product / material is found to be nonconforming to specification(s) resulting in a corrective action (CAR) being issued to the supplier by MPC, or on the behalf of customer or regulatory authority of MPC, the supplier will be assessed a \$500 charge to cover the costs incurred by MPC related to the corrective action process.

NONCONFORMING REQUIRED DOCUMENTATION

In accordance with the latest revision of Magee Form # QA-024 Purchase Order Requirement Quality Clauses, where required product / material or service documentation is not received, or where received documentation is found to not satisfy the specific clause(s), the supplier will be assessed a \$200 charge to cover the costs incurred by MPC for product that cannot immediately go to stock based upon insufficient supporting documentation. After the initial \$200 assessment, an additional \$100 will be charged for every (3) business days that the documentation remains insufficient.

{end of clause citation}

The above charges are not intended to be profit generating for MPC. They are intended to cover our internal costs when product or services to product arrive not ready for use. The main goal of these charges is to increase our first pass yield by ensuring product or services arrive complete.

Should you have any questions or concerns, please feel free to contact us.

Thank you for your continued support.
